The Power Cost Adjustment shall be billed, at the discretion of the Board of Directors, on a Power Cost Adjustment Factor, which shall be computed based on the following formula:

$$PCA = A + B + C$$

Where

PCA = The Power Cost Adjustment Factor.

A = The power supplier's quarterly wholesale fuel adjustment in \$ per kWh adjusted for line losses.

B = The power supplier's quarterly wholesale non-fuel purchased power adjustment in \$ per kWh adjusted for line losses.

C = The difference, per kWh sold, between the base rate purchased power cost from the power supplier in the current period and the base rate purchased power cost included in stated electric rate charges.
